

Dear all

You will be aware that England is now subject to tighter Government and legal restrictions in response to the on-going Coronavirus situation. This includes the "Rule of 6" in respect of the number of people that can gather as a group. This is subject to certain exemptions, including an exemption for organised outdoor sports and physical activities. To fall within this exemption and to be consistent with Sports England guidance issued 10 September 2020, it must be an organised activity, which

1. has been risk assessed;
2. has track and trace arrangements in place; and
3. is delivered according to a Covid-19 secure plan.

In order to continue hashing within the exemption and for everyone's safety, KH3 Mismanagement has prepared the following, which are attached:

1. A risk assessment;
2. Guidelines for hares; and
3. Guidelines for hashers.

### **Track and trace**

To comply with the track and trace requirements, your attendance at a hash will be recorded. If you, or any member of your household or bubble, develop Covid-19 symptoms or are required to self-isolate within 14 days of attending a hash, you must notify me or another member of the Mismanagement within 24 hours. Your identity will not be revealed to other hashers. I will notify persons that were present on the relevant hash with you. I will do this by blind copying those affected so again your and their personal information is not revealed.

### **Hard Bertie**

As there is no hard Bertie, you may wish to pay a lump sum of subs to Haddock (eg £10 for 6 months). Please do not worry if you do not feel able to do this - you can of course still hash!

### **ACTION FOR YOU if you wish to continue to hash**

1. Please take the time to read and familiarise yourself with these documents, particularly the guidelines for hashers.
2. Please provide your real name (as well as hash name) and contact telephone to me asap.

**To continue to hash with KH3 you must agree to abide by the guidelines. You can confirm your agreement by supplying your contact details to me.**

If you have any questions, please do (not) hesitate to contact me or any other member of the Mismanagement - Dents, Woody, Haddock, Amaized and Zorro.

Stay safe and on on!

Roxanne
